

## Anti-RHOB Antibody Picoband®

Catalog Number: A01550-3

### About RHOB

Ras homolog gene family, member B, also known as RHOB, is a protein which in humans is encoded by the RHOB gene. This gene is mapped to 2p24.1. It is a member of the Rho GTP-binding protein family. And RHOB has been shown to interact with CIT, ARHGEF3, ARHGDIG and RHPN2. RHOB plays a negative role in tumorigenesis as deletion causes tumor formation. Also, it serves as a microtubule-dependent signal that is required for the myosin contractile ring formation during cell cycle cytokinesis.

### Overview

Product Name	Anti-RHOB Antibody Picoband®
Reactive Species	Human, Mouse, Rat
Description	Boster Bio Anti-RHOB Antibody Picoband® catalog # A01550-3. Tested in ELISA, WB applications. This antibody reacts with Human, Mouse, Rat. The brand Picoband indicates this is a premium antibody that guarantees superior quality, high affinity, and strong signals with minimal background in Western blot applications. Only our best-performing antibodies are designated as Picoband, ensuring unmatched performance.
Application	ELISA, WB
Clonality	Polyclonal
Formulation	Each vial contains 4 mg Trehalose, 0.9 mg NaCl, 0.2 mg Na <sub>2</sub> HPO <sub>4</sub> .
Storage Instructions	At -20°C for one year from date of receipt. After reconstitution, at 4°C for one month. It can also be aliquotted and stored frozen at -20°C for six months. Avoid repeated freezing and thawing.
Host	Rabbit
Uniprot ID	P62745

### Technical Details

Immunogen	E.coli-derived human RHOB recombinant protein (Position: N117-E158).
Recommended Detection Systems	Boster recommends Enhanced Chemiluminescent Kit with anti-Rabbit IgG (EK1002) for Western blot.
Cross Reactivity	No cross-reactivity with other proteins.
Isotype	Rabbit IgG
Form	Lyophilized
Concentration	Adding 0.2 ml of distilled water will yield a concentration of 500 ug/ml.

Purification	Immunogen affinity purified.
Suggested Dilutions	Western blot, 0.25-0.5 ug/ml, Human, Mouse, Rat ELISA, 0.1-0.5 ug/ml, -

## Anti-RHOB Antibody Picoband® (A01550-3) Images

Western blot analysis of RHOB using anti-RHOB antibody (A01550-3). Electrophoresis was performed on a 5-20% SDS-PAGE gel at 70V (Stacking gel) / 90V (Resolving gel) for 2-3 hours. The sample well of each lane was loaded with 30 ug of sample under reducing conditions. Lane 1: human HeLa whole cell lysates, Lane 2: rat brain tissue lysates, Lane 3: mouse brain tissue lysates. After electrophoresis, proteins were transferred to a nitrocellulose membrane at 150 mA for 50-90 minutes. Blocked the membrane with 5% non-fat milk/TBS for 1.5 hour at RT. The membrane was incubated with rabbit anti-RHOB antigen affinity purified polyclonal antibody (Catalog # A01550-3) at 0.5 ug/mL overnight at 4°C, then washed with TBS-0.1%Tween 3 times with 5 minutes each and probed with a goat anti-rabbit IgG-HRP secondary antibody at a dilution of 1:5000 for 1.5 hour at RT. The signal is developed using an Enhanced Chemiluminescent detection (ECL) kit (Catalog # EK1002) with Tanon 5200 system. A specific band was detected for RHOB at approximately 22 kDa. The expected band size for RHOB is at 22 kDa.
