

Anti-SDS Antibody Picoband® HRP Conjugated

Catalog Number: A02273-1-HRP

About SDS

Serine dehydratase or L-serine ammonia lyase (SDH) is in the beta-family of pyridoxal phosphate-dependent (PLP) enzymes. This gene encodes one of three enzymes that are involved in metabolizing serine and glycine. L-serine dehydratase converts L-serine to pyruvate and ammonia and requires pyridoxal phosphate as a cofactor. The encoded protein can also metabolize threonine to NH_4^+ and 2-ketobutyrate. The encoded protein is found predominantly in the liver.

Overview

Product Name	Anti-SDS Antibody Picoband® HRP Conjugated
Reactive Species	Human, Mouse, Rat
Clonality	Polyclonal
Formulation	Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na_2HPO_4 .
Storage Instructions	At -20°C for one year from date of receipt. Avoid repeated freezing and thawing.
Host	Rabbit
Uniprot ID	P20132

Technical Details

Immunogen	E.coli-derived human SDS recombinant protein (Position: M1-K328).
Cross Reactivity	No cross-reactivity with other proteins.
Isotype	Rabbit IgG
Form	Liquid
Concentration	0.5 mg/mL
Purification	Immunogen affinity purified.
Conjugate	HRP
Suggested Dilutions	The intended application should be selected according to the customer's experimental requirements.
