

## Anti-FABP7 Antibody Picoband® Biotin Conjugated

Catalog Number: A02646-4-Biotin

### About FABP7

The gene encodes a small, highly conserved cytoplasmic protein that bind long-chain fatty acids and other hydrophobic ligands. The encoded protein is important in the establishment of the radial glial fiber in the developing brain. Alternative splicing and promoter usage results in multiple transcript variants encoding different isoforms. Pseudogenes of this gene are found on multiple chromosomes.

### Overview

|                      |  |
|----------------------|--|
| Product Name         | Anti-FABP7 Antibody Picoband® Biotin Conjugated  |
| Reactive Species     | Human  |
| Clonality            | Polyclonal   |
| Formulation          | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% Na <sub>3</sub> N. |
| Storage Instructions | At -20°C for one year from date of receipt. Avoid repeated freezing and thawing.                             |
| Host                 | Rabbit   |
| Uniprot ID           | O15540   |

### Technical Details

|                     |  |
|---------------------|--|
| Immunogen           | E.coli-derived human FABP7 recombinant protein (Position: T12-A132).                               |
| Form                | Liquid   |
| Concentration       | 0.5 mg/mL  |
| Purification        | Immunogen affinity purified.   |
| Conjugate           | Biotin   |
| Suggested Dilutions | The intended application should be selected according to the customer's experimental requirements. |
