

Anti-CLASP2 Antibody Picoband® APC Conjugated

Catalog Number: A03579-1-APC

About CLASP2

CLASP2 (CLIP-associating protein 2) is a brain specific protein belongs to CLASP family. CLASP1 and CLASP2 regulate microtubule plus-end dynamics in brine cortex. CLASP2 is required for the orientation of stabilized microtubules toward the leading edge, It may act at the cell cortex to enhance the frequency of rescue of depolymerizing microtubules by attaching their plus-ends to cortical platforms. Phosphorylation of CLASP2 by GSK3B may negatively regulate binding to microtubule lattices in lamella.
