## Overview

|                      |                                                                                                                                            |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Product Name         | Anti-CREM (I106) Antibody                                                                                                                  |
| Reactive Species     | Human, Mouse, Rat                                                                                                                          |
| Description          | Boster Bio Anti-CREM (I106) Antibody catalog # A04379. Tested in IHC applications. This antibody reacts with Human,Mouse,Rat.              |
| Application          | IHC                                                                                                                                        |
| Clonality            | Polyclonal                                                                                                                                 |
| Formulation          | Rabbit IgG, 1mg/ml in PBS with 0.02% sodium azide, 50% glycerol, pH7.2                                                                     |
| Storage Instructions | Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles. |
| Host                 | Rabbit                                                                                                                                     |
| Uniprot ID           | Q03060                                                                                                                                     |

## Technical Details

|                     |                                                                                                                                                                                                                                                                                                                                                    |
|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen           | Synthetic peptide, corresponding to amino acids 80-130 of Human CREM.                                                                                                                                                                                                                                                                              |
| Isotype             | IgG                                                                                                                                                                                                                                                                                                                                                |
| Form                | Liquid                                                                                                                                                                                                                                                                                                                                             |
| Concentration       | 1 mg/ml                                                                                                                                                                                                                                                                                                                                            |
| Purification        | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen and the purity is > 95% (by SDS-PAGE).                                                                                                                                                                                        |
| Suggested Dilutions | IHC: 1:50-1:200<br>Affinity purified Bach-2 antibody has been tested for use in ELISA, Immunoprecipitation, and western blot. Specific conditions for reactivity should be optimized by the end user. Expect a band approximately 91-140 kDa in size corresponding to Bach2 protein by western blotting in the appropriate cell lysate or extract. |
