

Anti-EPLIN/LIMA1 Antibody Picoband® FITC Conjugated

Catalog Number: A05231-1-FITC

About LIMA1

LIM domain and actin-binding protein 1 is a protein that in humans is encoded by the LIMA1 gene. This gene encodes a cytoskeleton-associated protein that inhibits actin filament depolymerization and cross-links filaments in bundles. It is downregulated in some cancer cell lines. Alternatively spliced transcript variants encoding different isoforms have been described for this gene, and expression of some of the variants may be independently regulated.

Overview

| | |
|----------------------|---|
| Product Name | Anti-EPLIN/LIMA1 Antibody Picoband® FITC Conjugated |
| Reactive Species | Human |
| Application | Recommended applications are based on the parent unconjugated antibody (ELISA, Flow Cytometry, IF, IHC, ICC, WB). Customers may select suitable applications according to their experimental needs. |
| Clonality | Polyclonal |
| Formulation | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na ₂ HPO ₄ , 0.02% Na ₃ . |
| Storage Instructions | At -20°C for one year from date of receipt. Avoid repeated freezing and thawing. Protect from light. |
| Host | Rabbit |
| Uniprot ID | Q9UHB6 |

Technical Details

| | |
|---------------------|---|
| Immunogen | E.coli-derived human EPLIN/LIMA1 recombinant protein (Position: R9-E744). |
| Cross Reactivity | No cross-reactivity with other proteins. |
| Isotype | Rabbit IgG |
| Form | Liquid |
| Concentration | 0.5 mg/mL |
| Purification | Immunogen affinity purified. |
| Conjugate | FITC Excitation Wavelength: 495 nm Emission Wavelength: 525 nm |
| Suggested Dilutions | Optimal dilutions should be determined by end users. |
