

Anti-FLRT3 Antibody Picoband® Fluoro647 Conjugated

Catalog Number: A06175-1-Fluoro647

About FLRT3

This gene encodes a member of the fibronectin leucine rich transmembrane protein (FLRT) family. FLRTs may function in cell adhesion and/or receptor signalling. Their protein structures resemble small leucine-rich proteoglycans found in the extracellular matrix. This gene is expressed in many tissues. Two alternatively spliced transcript variants encoding the same protein have been described for this gene.
