

## Anti-TGN46/TGOLN2 Antibody Picoband® Fluoro488 Conjugated

Catalog Number: A06591-2-Fluoro488

### About TGOLN2

This gene encodes a type I integral membrane protein that is localized to the trans-Golgi network, a major sorting station for secretory and membrane proteins. The encoded protein cycles between early endosomes and the trans-Golgi network, and may play a role in exocytic vesicle formation. Alternatively spliced transcript variants encoding multiple isoforms have been observed for this gene.
