

Anti-APC10 ANAPC10 Antibody

Catalog Number: A07065

About ANAPC10

Cell cycle regulated protein ubiquitination and degradation within subcellular domains is thought to be essential for the normal progression of mitosis. APC10 is a highly conserved component of the anaphase promoting complex/cyclosome (APC/C), a cell cycle-regulated E3 ubiquitin ligase that controls progression through mitosis and the G1 phase of the cell cycle. APC/C is responsible for degrading anaphase inhibitors, mitotic cyclins, and spindle-associated proteins ensuring that events of mitosis take place in proper sequence. The individual APC/C components mRNA and protein levels are expressed at approximately the same levels in most tissues and cell lines, suggesting that they perform their functions as part of a complex. It has been suggested that APC10 plays a role to regulate the binding of specific substrates to the APC/C complex, similar to that of coactivators.

Overview

Product Name	Anti-APC10 ANAPC10 Antibody
Reactive Species	Human, Mouse, Rat
Description	Boster Bio Anti-APC10 ANAPC10 Antibody (Catalog # A07065). Tested in ELISA, WB, IHC-P, IF applications. This antibody reacts with Human, Mouse, Rat.
Application	ELISA, IF, IHC-P, WB
Clonality	Polyclonal
Formulation	APC10 Antibody is supplied in PBS containing 0.02% sodium azide.
Storage Instructions	APC10 antibody can be stored at 4°C for three months and -20°C, stable for up to one year. Avoid repeated freeze-thaw cycles. Antibodies should not be exposed to prolonged high temperatures.
Host	Rabbit
Uniprot ID	Q9UM13

Technical Details

Immunogen	APC10 antibody was raised against a 16 amino acid synthetic peptide near the center of human APC10. The immunogen is located within amino acids 60 - 110 of APC10.
Predicted Reactive Species	Bovine
Isotype	IgG
Form	Liquid
Concentration	1 mg/mL
Purification	APC10 Antibody is affinity chromatography purified via peptide column.

Suggested Dilutions

APC10 antibody can be used for detection of APC10 by Western blot at 1 - 2 ug/mL. Antibody can also be used for immunohistochemistry starting at 5 ug/mL. For immunofluorescence start at 20 ug/mL.

Antibody validated: Western Blot in mouse samples; Immunohistochemistry in mouse samples and Immunofluorescence in mouse samples. All other applications and species not yet tested. Optimal dilutions for each application should be determined by the researcher.

Anti-APC10 ANAPC10 Antibody (A07065) Images

Western blot analysis of APC10 in mouse heart tissue lysate with APC10 antibody at (A) 1 and (B) 2 ug/mL.

Immunohistochemistry of APC10 in mouse heart tissue with APC10 antibody at 5 ug/mL.

Immunofluorescence of APC10 in mouse heart tissue with APC10 antibody at 20 ug/mL.
