

## Anti-LIMS2 Antibody

Catalog Number: A08256-3

### About LIMS2

LIMS2, also known as PINCH2, is a member of a small family of focal adhesion proteins. LIMS2 contains five LIM domains, each domain forming two zinc fingers, which permit interactions that regulate cell shape and migration. Along with integrin-linked kinase and parvin, LIMS2 is a component of a complex that mediates multiple protein-protein interactions at adhesion sites between cells and the extracellular matrix (ECM) (PMID: 12167643). Mutations in LIMS2 are associated with a novel muscular dystrophy, severe cardiomyopathy and triangular tongues (PMID: 25589244).
