

Anti-U1A/SNRPA Antibody Picoband® Biotin Conjugated

Catalog Number: A08780-2-Biotin

About SNRPA

U1 small nuclear ribonucleoprotein A is a protein that in humans is encoded by the SNRPA gene. The protein encoded by this gene associates with stem loop II of the U1 small nuclear ribonucleoprotein, which binds the 5' splice site of precursor mRNAs and is required for splicing. The encoded protein autoregulates itself by polyadenylation inhibition of its own pre-mRNA via dimerization and has been implicated in the coupling of splicing and polyadenylation.

Overview

| | |
|----------------------|--|
| Product Name | Anti-U1A/SNRPA Antibody Picoband® Biotin Conjugated |
| Reactive Species | Human, Mouse, Rat |
| Clonality | Polyclonal |
| Formulation | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na ₂ HPO ₄ , 0.02% NaN ₃ . |
| Storage Instructions | At -20°C for one year from date of receipt. Avoid repeated freezing and thawing. |
| Host | Rabbit |
| Uniprot ID | P09012 |

Technical Details

| | |
|---------------------|--|
| Immunogen | E.coli-derived human U1A/SNRPA recombinant protein (Position: E25-E218). |
| Cross Reactivity | No cross-reactivity with other proteins. |
| Isotype | Rabbit IgG |
| Form | Liquid |
| Concentration | 0.5 mg/mL |
| Purification | Immunogen affinity purified. |
| Conjugate | Biotin |
| Suggested Dilutions | The intended application should be selected according to the customer's experimental requirements. |
