

Anti-TFDP3 Antibody Picoband® Fluoro594 Conjugated

Catalog Number: A11396-3-Fluoro594

About TFDP3

This gene encodes a member of the DP family of transcription factors. These factors heterodimerize with E2F proteins to enhance their DNA-binding activity and promote transcription from E2F target genes. This protein functions as a negative regulator and inhibits the DNA binding and transcriptional activities of E2F factors.
