

## Anti-SLFN14 Antibody Picoband® HRP Conjugated

Catalog Number: A11813-1-HRP

### About SLFN14

The protein encoded by this gene plays an important role in platelet formation and function. Defects in this gene are a cause of thrombocytopenia with excessive bleeding.

### Overview

|                      |                                                                                     |
|----------------------|-------------------------------------------------------------------------------------|
| Product Name         | Anti-SLFN14 Antibody Picoband® HRP Conjugated                                       |
| Reactive Species     | Human, Mouse, Rat                                                                   |
| Clonality            | Polyclonal                                                                          |
| Formulation          | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> . |
| Storage Instructions | At -20°C for one year from date of receipt. Avoid repeated freezing and thawing.    |
| Host                 | Rabbit                                                                              |
| Uniprot ID           | P0C7P3                                                                              |

### Technical Details

|                     |                                                                                                                                                       |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen           | E.coli-derived human SLFN14 recombinant protein (Position: R132-R843). Human SLFN14 shares 77.4% amino acid (aa) sequence identity with mouse SLFN14. |
| Form                | Liquid                                                                                                                                                |
| Concentration       | 0.5 mg/mL                                                                                                                                             |
| Purification        | Immunogen affinity purified.                                                                                                                          |
| Conjugate           | HRP                                                                                                                                                   |
| Suggested Dilutions | The intended application should be selected according to the customer's experimental requirements.                                                    |
