

## Anti-HDDC3 Antibody Picoband® APC Conjugated

Catalog Number: A12287-1-APC

### About HDDC3

HDDC3, also known as Histone Deacetylase Domain Containing 3, is a gene that encodes a protein with a potential histone deacetylase activity. Proteins in this family are involved in the modification of histones, which can affect gene expression and cellular processes. Although the precise functions of HDDC3 are not fully understood, it is likely to play a role in regulating gene expression and cellular differentiation.
