

## Anti-RNF151 Antibody

Catalog Number: A18861-1

### About RNF151

Predicted to enable enzyme binding activity; identical protein binding activity; and zinc ion binding activity. Predicted to be involved in cell differentiation and spermatogenesis. Predicted to be located in cytoplasm and nucleus.

### Overview

|                      |                                                                                                                                                                                                                                                                                                                                                                                                                            |

| Description          | Boster Bio Anti-RNF151 Antibody catalog # A18861-1. Tested in WB, IHC applications. This antibody reacts with Human, Mouse, Rat.                                                                                                                                                                                                                                                                                           |
| Application          | IHC, WB                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Clonality            | Polyclonal                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Formulation          | 500 ug/ml antibody with PBS, 0.02% NaN <sub>3</sub> , 1 mg stabilizing protein and 50% glycerol<br>This antibody is supplied in a stabilized formulation.<br>Compatibility with conjugation reactions depends on the chemistry of the conjugation method used.<br>For conjugation methods that are not compatible with the stabilizing components present in this formulation, a carrier-free antibody format is required. |
| Storage Instructions | 12 months from date of receipt at -20°C as supplied. 6 months at 2 to 8°C after reconstitution. Avoid repeated freezing and thawing.                                                                                                                                                                                                                                                                                       |
| Host                 | Rabbit                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Uniprot ID           | Q2KHN1                                                                                                                                                                                                                                                                                                                                                                                                                     |

### Technical Details

|                     |                                                                      |
|---------------------|----------------------------------------------------------------------|
| Immunogen           | E.coli-derived human RNF151 recombinant protein (Position: G3-I242). |
| Form                | Liquid                                                               |
| Concentration       | 500 ug/ml                                                            |
| Purification        | Immunogen affinity purified.                                         |
| Suggested Dilutions | Western blot, 1:500-2000<br>Immunohistochemistry, 1:50-400           |
