

## Anti-ALIX/PDCD6IP Antibody Picoband®(monoclonal, 14D10) HRP Conjugated

Catalog Number: M01751-1-HRP

### About PDCD6IP

Programmed cell death 6-interacting protein is a protein that in humans is encoded by the PDCD6IP gene. This gene encodes a protein that functions within the ESCRT pathway in the abscission stage of cytokinesis, in intraluminal endosomal vesicle formation, and in enveloped virus budding. Studies using mouse cells have shown that overexpression of this protein can block apoptosis. In addition, the product of this gene binds to the product of the PDCD6 gene, a protein required for apoptosis, in a calcium-dependent manner. This gene product also binds to endophilins, proteins that regulate membrane shape during endocytosis. Overexpression of this gene product and endophilins results in cytoplasmic vacuolization, which may be partly responsible for the protection against cell death. Several alternatively spliced transcript variants encoding different isoforms have been found for this gene.

### Overview

|                      |   |
|----------------------|---|
| Product Name         | Anti-ALIX/PDCD6IP Antibody Picoband®(monoclonal, 14D10) HRP Conjugated              |
| Reactive Species     | Human, Mouse, Rat   |
| Application          | WB, IHC, ELISA  |
| Clonality            | Monoclonal 14D10  |
| Formulation          | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> . |
| Storage Instructions | At -20°C for one year from date of receipt. Avoid repeated freezing and thawing.    |
| Host                 | Mouse   |
| Uniprot ID           | Q8WUM4  |

### Technical Details

|                  |  |
|------------------|--|
| Immunogen        | E.coli-derived human PDCD6IP recombinant protein (Position: A2-D330). Human PDCD6IP shares 96.7% and 95.2% amino acid (aa) sequence identity with mouse and rat PDCD6IP, respectively. |
| Cross Reactivity | No cross-reactivity with other proteins.   |
| Isotype          | Mouse IgG2b  |
| Form             | Liquid   |
| Concentration    | 0.5 mg/mL  |
| Purification     | Immunogen affinity purified.   |

|                     |   |
|---------------------|---|
| Conjugate           | HRP   |
| Suggested Dilutions | Western blot, Optimal dilutions should be determined by end users.<br>Immunohistochemistry (Paraffin-embedded Section), Optimal dilutions should be determined by end users.<br>ELISA, Optimal dilutions should be determined by end users. |
