

Anti-RBBP5 Antibody (Monoclonal, 32R56)

Catalog Number: M04563-1

About RBBP5

This gene encodes a ubiquitously expressed nuclear protein which belongs to a highly conserved subfamily of WD-repeat proteins. The encoded protein binds directly to retinoblastoma protein, which regulates cell proliferation. It interacts preferentially with the underphosphorylated retinoblastoma protein via the E1A-binding pocket B. Three alternatively spliced transcript variants that encode different protein isoforms have been described for this gene.

Overview

Product Name	Anti-RBBP5 Antibody (Monoclonal, 32R56)
Reactive Species	Human, Mouse
Description	Boster Bio Anti-RBBP5 Antibody (Monoclonal, 32R56) catalog # M04563-1. Tested in IHC applications. This antibody reacts with Human, Mouse.
Application	IHC
Clonality	Monoclonal 32R56
Formulation	Rabbit IgG in stabilizing components, phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. This antibody is supplied in a stabilized formulation. Compatibility with conjugation reactions depends on the chemistry of the conjugation method used. For conjugation methods that are not compatible with the stabilizing components present in this formulation, a carrier-free antibody format is required.
Storage Instructions	Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles.
Host	Rabbit
Uniprot ID	Q15291

Technical Details

Immunogen	Synthetic peptide within human RbBP5 aa 433-478.
Form	Liquid
Concentration	500 ug/ml
Purification	Protein A affinity purified.
Suggested Dilutions	Immunohistochemistry, 1:50-200
