

## Anti-GFRAL Reference Antibody (NGM120)

Catalog Number: M13556

### Overview

|                      |                                                                                                                                                                                                                             |
|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Name         | Anti-GFRAL Reference Antibody (NGM120)                                                                                                                                                                                      |
| Reactive Species     | Human                                                                                                                                                                                                                       |
| Description          | Boster Bio Anti-GFRAL Reference Antibody (NGM120) (Catalog # M13556). Tested in Flow Cytometry, ELISA, FTA. This antibody reacts with Human. Endotoxin: < 0.1028EU/ug,determined by LAL method. Expression system: CHO Cell |
| Application          | ELISA, Flow Cytometry, Functional Assay, Kinetics                                                                                                                                                                           |
| Clonality            | Monoclonal                                                                                                                                                                                                                  |
| Formulation          | Purified monoclonal antibody supplied in PBS, pH6.0, without preservative.This antibody is purified through a protein A column.                                                                                             |
| Storage Instructions | Maintain refrigerated at 2-8°C for up to 2 weeks. For long-term storage, aliquot and store at -20°C to avoid repeated freeze-thaw cycles.                                                                                   |
| Uniprot ID           | Q6UXV0                                                                                                                                                                                                                      |

### Technical Details

|         |        |
|---------|--------|
| Isotype | IgG1   |
| Form    | Liquid |

## Anti-GFRAL Reference Antibody (NGM120) (M13556) Images

Anti-GFRAL Reference Antibody (NGM120) on SDS-PAGE under reducing (R) condition. The gel was stained with Coomassie Blue. The purity of the protein is greater than 95%

The purity of Anti-GFRAL Reference Antibody (NGM120) is more than 100%
