

Anti-NR2F6 Antibody Picoband® Cy3 Conjugated

Catalog Number: PB10081-Cy3

About NR2F6

Nuclear receptor subfamily 2 group F member 6 is a protein that in humans is encoded by the NR2F6 gene. It is a member of the nuclear receptor family of intracellular transcription factors. It has been shown to function as a coregulator of other nuclear receptors. NR2F6 impairs the formation of mature red blood cells in animals that over-express NR2F6 in their bone marrow. Mice that over expression of NR2F6 in their bone marrow cells have a block at the pro-erythroblast stage of blood cell development both in the bone marrow and in the spleen of animals that have excessive expression of NR2F6. So, when inhibition of differentiation of stem cell is desired, inhibition of differentiation is achieved through induction of increased NR2F6 activity. In situations where differentiation of stem cells into a cell of increased maturity is desired, inhibition of NR2F6 activity must be performed.

Overview

| | |
|----------------------|--|
| Product Name | Anti-NR2F6 Antibody Picoband® Cy3 Conjugated |
| Reactive Species | Human, Rat |
| Application | Recommended applications are based on the parent unconjugated antibody (WB). Customers may select suitable applications according to their experimental needs. |
| Clonality | Polyclonal |
| Formulation | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na ₂ HPO ₄ , 0.02% NaN ₃ . |
| Storage Instructions | At -20°C for one year from date of receipt. Avoid repeated freezing and thawing. Protect from light. |
| Host | Rabbit |
| Uniprot ID | P10588 |

Technical Details

| | |
|------------------|--|
| Immunogen | E. coli-derived human NR2F6 recombinant protein (Position: M270-Q404). Human NR2F6 shares 99.3% amino acid (aa) sequence identity with both mouse and rat NR2F6. |
| Cross Reactivity | No cross-reactivity with other proteins. |
| Isotype | Rabbit IgG |
| Form | Liquid |
| Concentration | 0.5 mg/mL |
| Purification | Immunogen affinity purified. |
| Conjugate | Cy3 Excitation Wavelength: 554 nm |

| | |
|---------------------|--|
| | Emission Wavelength: 568 nm |
| Suggested Dilutions | Optimal dilutions should be determined by end users. |
