### Overview

|              |                                                                                                                         |
|--------------|-------------------------------------------------------------------------------------------------------------------------|
| Product Name | e.coli GrpE Recombinant Protein                                                                                         |
| Description  | E. coli GrpE Recombinant Protein expressed in E. coli (non-tagged). Sequence domain: 1-197aa. Application(s): SDS-PAGE. |
| Size         | Starting from 20ug                                                                                                      |
| Tag          | Non-Tagged                                                                                                              |
| Form         | Liquid                                                                                                                  |
| Source       | E. coli                                                                                                                 |
| Formulation  | 20mM Tris-HCl buffer (pH 8.0) containing 100mM NaCl                                                                     |

### Concentration

1mg/ml (determined by Bradford assay)

### Storage

Can be stored at 2°C to 8°C for 1 week. For long-term storage, aliquot and store at -20°C to -80°C. Avoid repeated freeze-thaw cycles. (Ships with gel ice.)

### Purity

> 90% by SDS-PAGE

### Amino Acid Sequence
