### Overview

|              |                                                                                                                         |
|--------------|-------------------------------------------------------------------------------------------------------------------------|
| Product Name | e.coli msrB Recombinant Protein                                                                                         |
| Description  | E. coli msrB Recombinant Protein expressed in E. coli with His-tag. Sequence domain: 1-137aa. Application(s): SDS-PAGE. |
| Size         | Starting from 20ug                                                                                                      |
| Tag          | His-Tag                                                                                                                 |
| Form         | Liquid                                                                                                                  |
| Source       | E. coli                                                                                                                 |
| Formulation  | 20mM Tris-HCl buffer (pH 8.0) containing 20% glycerol, 0.1M NaCl, 1mM DTT                                               |

### Concentration

1mg/ml (determined by Bradford assay)

### Storage

Can be stored at 2°C to 8°C for 1 week. For long-term storage, aliquot and store at -20°C to -80°C. Avoid repeated freeze-thaw cycles. (Ships with gel ice.)

### Purity

> 95% by SDS-PAGE

### Amino Acid Sequence

E.coli, P0A746, 1-137aa; MGSSHHHHHH SSGLVPRGSH MANKPSAEEL KKNLSEMQFY VTQNHGTEPP FTGRLLHNKR DGVYHCLICD
