PicoKine® ELISA Kits

Explore our ready-to-use sandwich ELISA kits with a wide selection of 1000 target proteins for human, mouse, rat, and more.

PicoKine® Quick ELISA Kits

Upgrade from the traditional sandwich ELISA with our Quick ELISA kits that deliver reliable results in ~90 minutes.

EZ-Set™ ELISA Kits

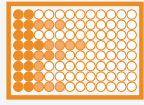

Our ELISA DIY Antibody Pairs are designed for experienced ELISA users on a budget and great for exploratory work.

High Sensitivity ELISA Kit PicoKine®

Detect low-abundance biomarkers with greater confidence. Built on the PicoKine® High Sensitivity system, these ready-to-use 96-well strip plate kits deliver sub-pg/mL sensitivity, as low as 0.005 pg/mL depending on target.

Multiplex ELISA Kits

Measure multiple analytes in one single assay. Save sample volume, reduce hands-on time, and gain more data from every well.

High Sensitivity

Validated for low-abundance targets using defined sensitivity criteria and curve-mapped MDD.

Excellent Specificity

Cross-reactivity is assessed against related proteins, with no detectable interference under defined conditions.

Quality Guaranteed

Rigorously validated & guaranteed to work as stated or your money back

Repeatable Results

Defined precision targets include intra-assay CV ≤ 10%, with lot-to-lot consistency monitored for reproducible results.
